

Vor Bio to Host Webcast on Late-Breaking China Phase 3 Telitacicept Data in Primary Sjögren's Disease

October 22, 2025

BOSTON, Mass., Oct. 22, 2025 (GLOBE NEWSWIRE) -- Vor Bio (Nasdaq: VOR), a clinical-stage biotechnology company transforming the treatment of autoimmune diseases, announced today that it will host a live webcast to present and discuss the newly disclosed, late-breaking 48-week Phase 3 clinical data in China for telitacicept in primary Sjögren's disease. The study was conducted by Vor Bio's collaborator RemeGen Co., Ltd (HKEX: 9995, SHA: 688331).

During the webcast, Vor Bio management, joined by Ronald van Vollenhoven, M.D., Ph.D., Professor of Rheumatology at Amsterdam University Medical Center, will review key efficacy and safety results from the trial.

Webcast Details:

Date: Tuesday, October 28, 2025

Time: 4:30 PM Eastern Time

Access:

- **Listen Only:** Listeners can register for the webcast via this [LINK](#)
- **Listen and Live Q&A:** Analysts or investors wishing to participate in the Q&A session should use this [LINK](#)

Replay: A replay of the webcast will be available via the investor section of the Company's website at <https://ir.vorbio.com/events-presentations/> approximately two hours after the call's conclusion and will remain available for a period of 30 days.

About Vor Bio

Vor Bio is a clinical-stage biotechnology company transforming the treatment of autoimmune diseases. The Company is focused on rapidly advancing telitacicept, a novel dual-target fusion protein, through Phase 3 clinical development and potential commercialization to address serious autoantibody-driven conditions worldwide.
